To Whom it May Concern:

Please consider the citizens before big business. We have voluntarily accepted to remove ourselves from these harassing phone calls. The inordinate amount of phone communication interrupts daily life, and I petition to have my bank or phone company continued to be included in this law. I no longer want my long distance carrier to call to offer me services, or my bank to call for special offers. Any correspondence can be received through the postal mail system. Please consider my petition. Thank you in advance.

Sincerely,

Cassandra Brown
